SUMMARY

I am a resourceful and innovative software developer who enjoys building useful applications from the ground up. I am driven by a desire to understand how things work and then engineer tools that solve real-world problems. With hands-on experience across the full software development life cycle—from ideation to deployment—I bring a creative and adaptable approach to every project, focusing on creating user-centric solutions that deliver measurable value.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Kotlin, HTML5, CSS3, Dart
Frameworks	React (Hooks, Context API), Next.js, Flutter (BLoC, Provider), Node.js (Express)
Platforms & Tools	Firebase (Firestore, Auth), Supabase, Git, GitHub, Vercel, Docker, Figma
Concepts	Generative AI (OpenAI, Gemini APIs), RAG, REST APIs, UI/UX Principles, CI/CD, Software Development Lifecycle (SDLC), Prompt Engineering, Open-Source Software

EXPERIENCE

Android Developer Intern <i>Android Club, VIT Bhopal</i>	<i>Kothri Kalan, MP</i> <i>Mar 2025 – Present</i>
--	--

- Drives community impact by designing and deploying new features for open-source mobile applications, resulting in 25% increased user engagement.
- I refactored key UI workflows based on user feedback, simplify navigation, and improve task completion rates across multiple projects.
- I spearheaded the integration of third-party APIs to broaden application functionality, collaborating with the team to deliver innovative, user-requested capabilities, and foster technical growth.

Figma Wireframe Designer <i>makemycards.com</i>	<i>Pune, MH</i> <i>Sep 2024 – Oct 2024</i>
---	---

- Architected the foundational UI for the company's inaugural digital card product, directly enabling the launch of their first revenue stream and capturing a new market segment.
- Optimized the design workflow by creating a streamlined process, increasing wireframe delivery efficiency by 30% within the first month.
- Led user research initiatives and analyzed feedback on initial designs, achieving a user satisfaction rating 95% for the final product.

PROFESSIONAL COMPETENCIES

- **Leadership & Initiative:** Proactively leads project initiatives, fosters a culture of innovation, and demonstrates a team-first mindset to achieve organizational objectives.
- **Communication & Oratory:** Excels in public speaking, creating clear technical documentation, and articulating complex ideas to diverse audiences.
- **Problem-Solving:** Highly adaptable and resourceful in finding solutions; a quick learner who thrives on tackling new technologies and challenges.

EDUCATION

Integrated M.Tech, Computational Data Science <i>Vellore Institute of Technology (VIT), Bhopal</i>	<i>Expected Jun 2028</i>

PROJECTS & ACHIEVEMENTS

HackHazards'25 – Top 100 Finalist

out of 17,000+ participants

*Project: **Sentinel** – A browser extension for real-time web security using AI-powered analysis.*

Unstop Codefest – Finalist

Top 9 out of 300 teams

*Project: **Joto** – An AI-powered study assistant that transforms raw notes into comprehensive study materials.*

Winner – Android Club Winter of Code (AcWoC'25)

Top Contributor #1

Secured first place in a month-long open source competition, leading the next contributor by a margin of 1,300 points.
